

This folder recreates Tables 1 – 3 and Tables 6-11.

Data is stored in the Raw Data folder; this includes the test data, random check data, and data from the cameras for the RDD.

Individual programs for each table can be found in the Programs folder, with the program name corresponding to the table in the paper. Log files and table output are respectively found in Log files and Output.

“MasterDoFile.do” runs the entire set of tables/figures.
