Along with the solutions, the website contains overheads for use in teaching *Foundations of International Macroeconomics*, as well as other information and accessories, such as typos in the first (Fall 1996) printing, new exercises (when available), and beta versions of new chapters (if and when available).

Obstfeld and Rogoff are grateful for assistance and feedback from students in their graduate international finance and macroeconomics courses at Berkeley and Princeton. The authors wish to thank especially Giovanni Olivei and Stefan Palmqvist for their help in preparing this solutions manual.
