Notifications

It is important that you allow SiS to send you notifications.

Receiving notifications will help you to remember to complete all your in-app activities!

Here’s how to enable push notifications for SiS if you haven’t already done so.
iPhone: Enable Push Notifications

- Navigate to “Settings”
- Press “Notifications”
- Scroll until you see “SiS” in your list of apps
- Ensure that “Allow Notifications” is switched on (displays green)
Android: Enable Push Notifications

Navigate to “Settings”

Press “Notifications”

Scroll to “SiS” in your list of apps. Ensure the button allowing notifications is switched on (displays blue)
