Honors and Prizes

1996-2000	Emory MLK Scholarship	Emory University	Selected for full undergraduate merit/academic scholarship to attend Emory University
1996-2000	Governor's Scholarship	State of Georgia	Chosen for undergraduate scholarship for being selected as high school valedictorian
1996-2000	Georgia Pacific Scholar	Georgia Pacific Corporation	1 of 3 community scholars selected from region for undergraduate scholarship
1997	Herman L. Reese Community Service Award	Emory Caucus of Emory Black Alumni (CEBA)	Community service rendered to Emory and greater Atlanta
1999	Precious Petal Award	Delta Sigma Theta Sorority, Inc.	Most outstanding collegiate sorority woman in the Southern Region

1999	Multicultural Award of Excellence	Emory Office of Multicultural Programs & Services	Received for Leadership/Service to the Emory community
2000	Emory College Hall of Fame	Emory University	1 of 4 students for highest honor in Emory College for scholarship, leadership, and service to Emory community
2000	Outstanding Contribution to the Greek Community	Emory Office of Greek Life	Sorority woman who has contributed most to betterment of the Greek community
2000	Greek Woman of the Year	Emory Office of Greek Life	Service and Leadership to the Greek community
2000	Multicultural Award of Overall Excellence	Emory Office of Multicultural Programs & Services	Received for Academic Excellence and Leadership/Service to Emory
2000	Black Student Alliance Outstanding Leadership	Emory University	Selected as the undergraduate with the greatest leadership contribution to the Emory community
2000	Order of Omega Honor Society	Emory Office of Greek Life	Academic Achievement and Contribution to Emory
2000	Class Marshal	Emory University Dean's Office	Chosen to lead graduating class at Commencement Services
2001	Gold Congressional Medal	United States Congress	Highest honor Congress bestows upon youth for volunteerism, physical fitness, personal development, and expedition
2003-2007	George Stoney Medical Scholar	Stoney Medical Foundation	Recipient of full tuition scholarship to Medical College of Georgia School of Medicine
2003-2004	National Minority Leadership Award	United States Achievement Academy	Selected for outstanding leadership at the Medical College of Georgia School of Medicine

2005	Wilbert C. Jordan Best Overall Clinical Research Presentation	Student National Medical Association	Best Clinical Research presentation at 21 st annual research competition
2005	Best Overall Clinical Science Presentation	Eastern Atlantic Student Research Forum	Best Overall Clinical Science Presentation at 31 st Annual ESRF competition
2005	Best Orthopaedic Surgery Poster	National Student Research Forum	Best Poster Presentation at 46 th Annual NSRF competition
2005	Foundation Leadership Award Recipient	American Medical Association	1 of 20 medical students selected in the nation for outstanding non-clinical leadership in advocacy, community service, and education
2006	Medical Student Scholarship	Ruth Jackson Orthopaedic Society	1 of 2 female medical students selected to attend American Academy of Orthopaedic Surgery annual meeting
2006	Timothy J. Stephens Jr., MD Award	National Medical Association	3 rd Place Recipient of the Orthopaedic Section Research Competition
2006	Visiting Clerkship Program Participant	Harvard Medical School Office for Diversity and Community Partnership	Selected to participate in Harvard Medical School Exchange Clerkship Program
2007	General Scholarship	Medical College of Georgia School of Medicine	Monetary award for academic qualifications
2007	National Dean's List	Medical College of Georgia School of Medicine	Selected for academic excellence demonstrated by G.P.A.
2008	Intern of the Month	Palmetto Health/ University of South Carolina School of Medicine Department of Internal Medicine	Selected by internal medicine chief residents for superior performance on clinical rotation
2009	Resident Physician Teacher of the Rotation	Palmetto Health/ University of South Carolina School of Medicine Department of Pediatrics	3 rd year medical students select the best resident teacher for their 8 week clinical rotation
2009	Paul Ambrose Award	American Medical Association	Selected as the resident physician who has contributed

			the most to the field of public health
2010	1 st Place Oral Research Competition	American College of Physicians- South Carolina Chapter	Best Oral Research Presentation
2010	1 st Place Health Policy Poster	American Medical Association	Best Health Policy Poster
2011	<i>Be Our Voice</i> Legislative Conference Scholar	American Academy of Pediatrics	1 of 20 pediatric residents chosen for advocacy training on children's rights on Capitol Hill
2011	1 st Place Poster Competition	South Carolina Medical Association	1 st place recipient of the Residents & Students Scientific poster competition
2012	Regional Candidate	White House Fellows	Selected as a regional candidate for the White House Fellows. 90 candidates selected from 1000+ applications in the US
2012	Excellence in Ambulatory General Medicine	Palmetto Health/ University of South Carolina School of Medicine	Presented to the resident who best demonstrates the competencies of an ambulatory general internist through participation in the Ambulatory IM block and continuity clinic experience
2012	Top 40 Health Professional Under 40	National Medical Association	Awarded to individuals under the age of 40, in the Health Professional Community, who are working to change the face, practice, and future of medicine for the better.
2012	Design and Conduct of Clinical Trials	Massachusetts General Hospital Clinical Research Program	Completed course to envision, plan, develop, and execute effective clinical trials.
2013	Johnson Leadership Award	American College of Physicians	The award recognizes an Associate member of the College who has demonstrated qualities that exemplify the College's mission "to enhance the quality and effectiveness of health care

by fostering excellence and professionalism in the practice of medicine.”

2013	Certificate in Applied Biostatistics	Harvard Catalyst	Selected for 35-week course in Applied Biostatistics
2013	Loan Repayment Program Grantee	National Institutes of Health Health Disparities	Selected by National Institute on Minority Health and Health Disparities (NIMHD) to complete research in obesity health disparities research while receiving funding to pay for qualified student loan debt.
2014	Certificate of Excellence in Tutoring	Harvard Medical School	Awarded to HMS faculty who serve as tutors in the required New Pathway courses in Years I and II and receive a score of 1.25 or above based on evaluation of students in their tutorial group with a minimum of 6 evaluations received, 6 minimum teaching sessions in the Health Policy course.
2014	Zuckerman Fellow	Harvard University	Selected by the Harvard Committee on General Scholarships for full tuition and co-curricular program for fellowship which equips people from the fields of medicine, law, and business to provide leadership for the common good.
2015	Fellow	The Obesity Society	Fellowship is one of the highest honors The Obesity Society bestows, and this prestigious mark of distinction highlights contributions to the field of obesity research, treatment and prevention.
2015	Inspirational Physician Honoree	American Medical Association- Women Physicians Section	The Inspirational Physician program is designed to recognize physicians who have contributed to the achievements of women in the medical profession.

2015	Young Leadership Award	American College of Physicians- MA Chapter	Recognition for dedication and volunteerism to the MA Chapter of the American College of Physicians.
2016	Top 40 under 40 Leaders in Health	National Minority Quality Forum	The award recognizes all of your accomplishments in the healthcare field and our potential to continue positively impacting minority communities.
2016	Fellow	American Academy of Pediatrics	Fellowship is based upon board certification in pediatrics and an ongoing commitment to lifelong learning and advocacy for children.
2016	Fellow	National Institutes of Health/ National Medical Association	Fellowship for physicians preparing for careers in research or academic medicine and especially those who are interested in research in disease areas that disproportionately impact the health of minorities and underserved communities.
2016	Nominee	Harvard Medical School	Nominee for the Donald O'Hara Faculty Prize for Excellence in Teaching (Years I & II)
2016	Nominee	Massachusetts General Hospital	Nathaniel Bowditch Prize recognizes significant contributions to enhance the delivery of quality patient care while also reducing the cost of that care.
2017	Young Achiever	American College of Physicians	Members in training or early career who have been selected for an ACP award or who have been successful in a ACP competition.
2017	Harold Amos Faculty Diversity Award	Harvard Medical School	The Harold Amos Diversity Award has been established to recognize HMS/HSDM faculty (clinical, pre-clinical, research,

			administrative) who have made significant achievements in moving HMS/HSDM toward being a diverse and inclusive community.
2017	Women's Health Award	Massachusetts Medical Society	The Women's Health Award recognizes a physician for outstanding contributions advancing Women's Health in Massachusetts.
2017	Top 40 under 40 Inaugural Class	Emory University	The Top 40 under 40 are selected based upon whose professional success represents the significant reach and impact of Emory Alumni.
2017	Honorable Mention	National Compassionate Caregiver of the Year Award	The Schwartz Center for Compassionate Healthcare selects health providers and care teams who demonstrate empathy for patients and families.
2018	Fellow	American College of Physicians (ACP)	Invited Fellowship is an honor achieved by physicians who are recognized by ACP leaders for their personal integrity, superior competence in internal medicine, professional accomplishment, and demonstrated scholarship.
2018	Newsworthy Abstract and Presidential Poster Competition	Endocrine Society (ENDO)	Abstract selected for being particularly newsworthy singled out for special media attention in annual Research Summaries Book (RSB). It was also selected for Presidential Poster Competition for a top-scoring abstract.
2018	NIH R13 Early Career Investigator Award	National Medical Association (NMA)	Selected by the NMA Internal Medicine Section to deliver a podium presentation on obesity and body image in the Black community.

2018	Loan Repayment Program Grantee	National Institutes of Health (NIH) Clinical Research	Selected by National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) to complete clinical research in obesity while receiving funding to pay for qualified student loan debt.
2019	Suffolk Community Clinician of the Year Award (CCYA)	Massachusetts Medical Society (MMS)	Selected as a physician in the community who has provided service “above and beyond the call” to his or her own patients.

Report of Funded and Unfunded Projects

Funding Information

Past

- 1994 **The expression of recombinant flavodoxin in *Escherichia coli***
Emory/NIH Minority Research Apprentice Program
Investigator; PI: Dale Edmondson, PhD
The major goal of the study was to determine the quantity of recombinant flavodoxin that could be obtained through column chromatography. Flavodoxin is capable of converting nitrogen in the air into nitrogenous compounds that can be used in the soil.
- 1998 **The prevalence of tetracycline labeling in a Nubian X-Group (24-I-3) Population 350-550 CE**
Emory Summer Undergraduate Research Program (SURE)
Investigator, PI: George Armelagos, PhD
The major goal of this study was to determine the prevalence of tetracycline in ancient Nubian femurs.
- 2003 **Remodeling of transplanted fascia in developmental joint reconstruction**
Bristol Myers Squibb National Medical Fellowship/ Medical College of Georgia Dean’s Research Program
Principal Investigator; Total funds: \$7000
The major goal of this study was to determine if a New Zealand white rabbit autologous lumbar fascia graft that was placed in a transmetaphyseal fashion would cause varus or valgus deformities or cause leg length discrepancy when compared with the contralateral non-operative limb.
- 2009 **Determining the level of physical activity in attending physicians, resident and fellow physicians, and medical students in the United States**
Richland Memorial Hospital Research & Education Fund
Principal Investigator, Total Funds: \$3500
The major goal of this study was to determine the level of physical activity in a representative sample in the physician population. Studies indicate that physicians that are more active are more likely to encourage such behavior in their patient population.

- 2011 **“Moving and Losing: A pilot study incorporating physical activity to decrease obesity in the pediatric population.**
 Richland Memorial Hospital Research & Education Fund, University of SC IRB Study # Pro00008206
 Principal Investigator, Total Funds: \$5875
 The major goal of this study was to determine if the incorporation of pedometers and age appropriate fitness DVDs had an impact on physical activity and obesity parameters in a cohort of overweight and obese children and adolescents.
- 2014- 2015 **Patient Race and the Likelihood of Undergoing Bariatric Surgery Among Patients Seeking Surgery**
 National Institutes of Health (R01DK073302)
 Co-Investigator, PI: Christina Wee, MD, MPH
 The major goal of this study was to determine whether ethnic minority adults who seek bariatric surgery are less likely to proceed with surgery than Caucasians.
- 2015 **Bariatric Surgery and the influence of an individual’s weight perception on its acceptance in the US**
 ConscienHealth, PI: Caroline Apovian, MD
 Co-Investigator
 The major goal of this study was to assess the proportion of U.S. adults with excess weight and obesity who consider bariatric surgery to be appropriate for themselves and how their own weight perception influences this consideration.
- 2013- 2015 **Identifying physician, patient, and practice factors which play a role in patient referral for consideration for obesity medicine and bariatric surgery.**
 National Institutes of Health Disparities Loan Repayment Program
 Principal Investigator, Total Funds: \$35,000/ year
 The major goal of this study was to determine which physician, practice, and patient factors play a role in patient referral for consideration for obesity medicine and bariatric surgery.
- 2014-2015 **Employer Wellness Programs, Weight Outcome Hurdles, and Obesity Treatment Access**
 ConscienHealth, PI: Ted Kyle, RPh
 Co-Investigator
 The major goal of this study was to assess whether US employers (1) requires participation in a wellness program to receive full health benefits; (2) sets goals for weight and other health indicators; and (3) includes coverage for evidence-based obesity treatment in their health plan.
- 2015-2016 **Demonstrating the use of combination therapy (bariatric surgery and anti-obesity medication) the treatment of moderate to severe obesity**
 Principal Investigator \$50,000
 Department of Medicine, Division of Gastroenterology, Massachusetts General Hospital
 The major goal of this study was to demonstrate that multiple modalities are often needed to achieve a healthy weight in patients with moderate (BMI \geq 35-39.9) to severe obesity (BMI \geq 40) in conjunction with bariatric surgery. Bariatric surgery patients often have

inadequate weight loss or weight regain after bariatric surgery. We sought to demonstrate that anti-obesity medications are an important tool to use as an adjunct for weight loss in this patient population.

- 2015-2018 **Bone Metabolism in Adolescents Undergoing Bariatric Surgery**
National Institutes of Health (R01 DK103946-01A1) - Diversity Supplement
Massachusetts General Hospital Department of Medicine Sanchez and Ferguson Research Faculty Award
Co-Investigator, PIs: Madhusmita Misra, MD, MPH and Miriam Bredella, MD
The major goal of this study is to investigate effects on Roux-en Y gastric bypass (RYGB) and vertical sleeve gastrectomy (VSG) on bone in adolescents (14-21 years old) with severe obesity compared to adolescents without severe obesity followed without surgery.

Current

- 2017-2021 **Exploring Referral Patterns and Shared Decision Making Regarding Weight Loss Surgery Adolescents and Young Adults with Moderate to Severe Obesity**
Massachusetts General Hospital Physician Scientist Development Award (PSDA)
Principal Investigator \$138,000
This proposal seeks to understand predictors of referrals to tertiary weight management and subsequent weight loss surgery in adolescents and young adults. We will assess shared decision making surrounding weight loss surgery and develop a decision aid (DA) to help adolescents and young adults with moderate to severe obesity decide if weight loss surgery might be a useful tool to treat their obesity.
- 2018-Present **A randomized, double-blind, placebo-controlled study to evaluate the effects of repeat doses of intranasal oxytocin in adults with obesity**
National Institutes of Health (R01 DK 109932-01A1)
Co-Investigator, PI: Elizabeth Lawson, MD, MMSc
This study is a randomized placebo-controlled investigation to study the effects and underlying mechanism of intranasal oxytocin, a hypothalamic hormone that regulates appetite and energy metabolism, for eight weeks in adults with obesity.
- 2018-Present **Oxytocin Deficiency in Hypopituitary Men**
Massachusetts General Hospital (MGH) Department of Medicine
Co-Investigator, PI: Elizabeth Lawson, MD, MMSc
Our goal is to identify and begin to clinically characterize an oxytocin-deficient state in hypopituitary patients. We will focus on patients who are at highest risk for oxytocin deficiency, those with diabetes insipidus, and compare them to two control groups, patients with anterior pituitary deficiency but no diabetes insipidus, and healthy controls of similar age and weight.
- 2018-Present **Determining Imaging Biomarkers of Metabolic Syndrome in Abdominal CT Scans**
Massachusetts General Hospital (MGH) Department of Radiology
Co-Investigator, PI: Avinash Kambadakone, MD
Our goal is to identify imaging biomarkers of metabolic syndrome in patients with this condition undergoing abdominal CT for various indications. Recognition of an imaging biomarker for metabolic syndrome on abdominal CT scan will allow it to be used as a screening method for identifying potential patients of metabolic syndrome or those at risk

for this condition which undergoing abdominal CT scans for unrelated reasons such as abdominal pain. This will potentially allow early intervention so that appropriate treatment can be instituted.

- 2019-Present **Legal protection against weight discrimination: A potential macro-environmental lever to prevent eating disorders**
 Harvard Catalyst
 Principal Investigator \$50,000
 This research-to-policy study focuses on anti-weight discrimination law, and it employs mixed methods (interviews and surveys) to explore this legislative effort. To explore these hypotheses, we examine with key stakeholders the evolution of anti-weight discrimination legislation in Michigan and Massachusetts; apply the anti-stigma principle to ascertain perceptions and knowledge amongst legislators in Massachusetts of the experiences of people living in larger bodies; and through these activities support generation of a coalition to facilitate legislative efforts in Massachusetts.

Report of Local Teaching and Training

Teaching of Students in Courses

1997	General Chemistry Review Emory Chemistry Students	Emory University Taught 30 hours to undergraduate students tools to help them excel in general chemistry 141
2000	Undergraduate Health Freshman- Senior Undergraduate Students	Emory University Taught 50 hours to undergraduate students for fall semester
2001-2003	MCAT General Chemistry Pre-medical students	Princeton Review (Buckhead, Emory, GA Tech) Taught 80 hours per semester for undergraduates preparing for the Medical College Admissions Test
2001-2003	GMAT Pre-business students	Princeton Review (Buckhead) Taught 40 hours per semester for students preparing for the Graduate Medical Admissions Test
2001-2003	SAT Pre-college students	Princeton Review (Buckhead) Taught 15 hours per semester for students preparing for the SAT
2012- Present	Introduction to Clinical Nutrition 2 nd year medical students	Harvard Medical School 10 hours per year
2012	Respiratory Course 2 nd year medical students	Harvard Medical School 6 hours per year

2013- Present	Health Policy Course 1 st year medical students	Harvard Medical School 40 hours per year
2016- Present	Obesity Medicine- Core I Clerkship 2 nd and 3 rd year medical students	Harvard Medical School 240 hours per year
2016- Present	Independent Study- Research 4 th year medical students	Harvard Medical School 60 hours per year

Formal Teaching of Residents, Clinical Fellows and Research Fellows (post-docs)

2010	Diabetes Mellitus Overview Internal Medicine Residents and Faculty	Palmetto Health/ University of South Carolina School of Medicine 1 hour lecture
2010	Acute Pancreatitis Internal Medicine Residents and Faculty	Palmetto Health/ University of South Carolina School of Medicine 1 hour lecture
2010	Aspiration Pneumonia Internal Medicine Residents and Faculty	Palmetto Health/ University of South Carolina School of Medicine 1 hour lecture
2010	Approach to Pediatric Obesity Pediatric Residents and Faculty	Palmetto Health/ University of South Carolina School of Medicine 1 hour lecture
2010	Mycobacterium Avium Intracellulare Internal Medicine Residents and Faculty	Palmetto Health/ University of South Carolina School of Medicine 1 hour lecture
2011	Pediatric Obesity Co-morbidities Pediatric Residents and Faculty	Palmetto Health/ University of South Carolina School of Medicine 1 hour lecture
2013	Hunter-Gather Energetics and Human Obesity Obesity Medicine Faculty, Fellows, & Post- Docs	Massachusetts General Hospital Obesity Metabolism & Nutrition Institute/ Harvard Medical School 1.5 hour journal club
2013	Poverty and Obesity Obesity Medicine Faculty, Fellows, & Post- Docs	Massachusetts General Hospital Obesity Metabolism & Nutrition Institute/ Harvard Medical School 1.5 hour journal club
2013	Identifying/ Addressing Disparities in Obesity Care	Massachusetts General Hospital Obesity Metabolism & Nutrition Institute/ Harvard Medical School

	Obesity Medicine Faculty, Fellows, & Post-Docs	1.5 hour journal club
2014	Fried Food Consumption, Genetic Risk, and Body Mass Index: Gene- Diet Interaction Analysis in 3 US Cohort Studies Obesity Medicine Faculty, Fellows, & Post-Docs	Massachusetts General Hospital Obesity Metabolism & Nutrition Institute/ Harvard Medical School 1.5 hour journal club
2014	Obesity: The Epidemic, Its Consequences, and Treatments	Massachusetts General Hospital Internal Medicine Residents Noon Conference 1 hour lecture
2016	Obesity in Childhood: Navigating Current Research Insights and Clinical Practice	Massachusetts General Hospital Pediatric Endocrinology Didactic Conference 1 hour lecture
2017	Obesity in Adolescents and Young Adults: Role of Pharmacotherapy	Massachusetts General Hospital Pediatric Endocrinology Didactic Conference 1 hour lecture
2018	Pharmacotherapy for the Treatment of Obesity	St. John's Hospital, Ascension Health Internal Medicine Didactic Conference 1 hour lecture
2018	Weight Bias and Stigma in Pediatrics	Boston Children's Hospital Pediatrics Didactic Conference 1 hour lecture
2019	Medications for the Treatment of Obesity	West Virginia University Internal Medicine Didactic Conference 1 hour lecture

Clinical Supervisory and Training Responsibilities

2008-2011	University of South Carolina School of Medicine 1 st and 2 nd year medical student preceptor	3 hours per week during 2 nd semester of academic year
2012-Present	MGH Weight Center- Medical Students, Residents, Fellows, Dietician Students	4 hours every other week

Formally Supervised Trainees and Faculty

2011-2012	Louisa Houston Vann, MPH, University of South Carolina Arnold School of Public Health Supervised one project and publication accepted in the <i>Journal of the South Carolina Medical Association</i> .
2011- 2016	Mechelle Claridy, MPH, Morehouse School of Medicine Public Health Program Supervised publications accepted to <i>Obesity, International Journal of Family Medicine, and American Journal of Managed Care</i> . Provided career advice, preparation for MCAT.

- 2013- Present Gricelda Gomez, MD, MPH, Harvard Medical School/ School of Public Health graduate Urology Resident, Brigham and Women's Hospital/ Harvard Medical School
Guided through USMLE exams, scholarship applications, and provided career mentoring. Under my guidance, she was selected as AMA-MAS medical student representative and accepted at Harvard School of Public Health. Supervised research endeavors for research abstract for the MGHfC Research Day. Supervised manuscript on weight loss medications after bariatric surgery. Supervised work on weight loss medication tiering in the US. Supervised work on review article on obesity in women.
- 2013- 2016 Parsa Shahbodaghi, BS, Tufts University graduate
Guided through MCAT preparation, medical school applications
- 2015- Present Zujaja Taqueer, MD, DPhil, MSc, Harvard Medical School graduate
Provided career mentoring. Guided selection as student editor for the American Medical Association Journal of Ethics. Supervised work on review article on obesity in women. Supervised work on role of media in the obesity epidemic.
- 2015- Present Carl Palad, BS, Northeastern University graduate, NYMC medical student
Supervised shadowing experience in the MGH Weight Center (adult and pediatric patients). Provided guidance on MCAT exam, medical school admissions, and career in obesity medicine. Supervised work on chapter on obesity co-morbidities in obesity text. Supervised work on Letter to the Editors on People First Language in Peer Reviewed Journals. Co-authored Weight Bias in Pediatrics Review.
- 2015- 2016 Nasreen Alfaris, MD, MPH, Obesity Medicine and Nutrition Fellow, Massachusetts General Hospital and Harvard Medical School
Supervised work on manuscript on weight loss pharmacotherapy after weight loss surgery, letter to the editor accepted in the NEJM, and editorial on weight bias in weight loss medication prescribing in the *International Journal of Obesity*.
- 2016- 2017 Elizabeth Ruth Wilson, PhD, MPP, Harvard Kennedy School of Government
Supervised work on manuscript on obesity coverage in the United States.
- 2016- Present Igor Lucas Gomes dos Santos, PhD, Post-Doctoral Fellow, Massachusetts General Hospital and Harvard Medical School
Served as research mentor and clinical collaborator on the beneficial role of exercise in obesity-associated breast cancer (tumor perfusion and oxygenation, inflammatory tumor microenvironment, and immunotherapy efficacy).
- 2016- Present Alexander T. Toth, BA, Clinical Research Coordinator, Massachusetts General Hospital
Supervised work in clinical study of bone health in adolescents with overweight and obesity. Supervised work on weight loss pharmacotherapy in young adults and elderly who have undergone weight loss surgery. Supervised work on review on racial and ethnic disparities in obesity.
- 2017- Angel Byrd, MD, PhD, Post-Doctoral Fellow, Johns Hopkins University Hospital

- Present Supervised work on review on racial and ethnic disparities in obesity. Supervised work on the role of obesity in hidradenitis supparativa.
- 2017- Present Sonali Malhotra, MD, Obesity Medicine and Nutrition Fellow, Massachusetts General Hospital and Harvard Medical School Supervised work on comparison of outcomes of weight loss surgery in adolescent and adult patients. Supervised book chapter on obesity.
- 2017- Present Michael Raspuzzi, BA and Julie Loiland, Harvard Graduate School of Design Supervised work on design and implementation of a population project to address overweight and obesity in mothers and children in Boston.
- 2017- Present Olivia Umoren, BS, Clinical Research Coordinator, Massachusetts General Hospital Supervised work on weight promoting drugs in the Women’s Health Initiative (WHI) cohort. Supervised work on Letter to the Editors on People First Language in Peer Reviewed Journals.
- 2017- Present Karen Joanie Campoverde Reyes, MD, Research Assistant, Massachusetts General Hospital Supervised work on project assessing referral patterns and shared decision making in adolescents and young adults who might be considered for weight loss surgery. Supervised work on comparison of outcomes of weight loss surgery in adolescent and adult patients.
- 2017- Present Faizah Shareef, BS, Boston University Medical Degree Candidate Supervised work on project and manuscript on telemedicine utilization in obesity medicine.
- 2018- Present Rebekah Rogers, BS, Charles Drew Program/ UCLA Medical Degree Candidate Provided guidance on MPH candidacy, CV preparation, and research opportunities.
- 2018- Present Siddharth Yarlalagadda, AB, Harvard College Supervised shadowing experience in the MGH Weight Center (adult and pediatric patients). Supervised work on Letter to the Editors on People First Language in Peer Reviewed Journals. Co-authored Weight Bias in Pediatrics Review.
- 2017- Present Alister Martin, MD, MPP, Massachusetts General Hospital ER Resident Physician Guided through grant process on “Nudging Evidence Based Treatment of Opioid Addiction in the Emergency Department” for the Arnold Foundation. Provide career guidance.
- 2017- Present Marissa Mastrocola, MD candidate, University of Massachusetts School of Medicine Provide career mentorship. Guided systematic project on obesity education throughout the world.
- 2018- Present Priscilla Cortez, University of Arizona, BS Candidate Guided project on comparing long term outcomes of weight loss surgery on adolescents and adults at a single site.

- 2018- Present Tasnim Mushannen, Cornell University in Qatar, MD candidate
Guided project on comparing long term outcomes of weight loss surgery on adolescents and adults at a single site.
- 2018- Present Deanna Palenzuela, BS, Harvard Medical School, MD Candidate
Provided career guidance in medicine.
- 2018- Present Lauren Benning, BA, Campbell University, DO Candidate
Guided systematic project on obesity education throughout the world. Serve as career mentor on obesity medicine.
- 2018- Present Takara Stanley, MD, Assistant Professor of Pediatrics, Massachusetts General Hospital and Harvard Medical School
Serve on dissertation committee for Epidemiology PhD at Boston University on project entitled: “: Clinical Effectiveness of Obesity-Related Screening in the Primary Care Setting”
- 2018- Present Yasmin Hernandez-Barco, MD, Gastroenterology Fellow, Massachusetts General Hospital and Harvard Medical School
Provided career mentorship and guidance.
- 2018- Present Sebastian Roque, MD candidate, Tufts University School of Medicine.
Guided systematic project on obesity education throughout the world.

Report of Clinical Activities and Innovations

Current Licensure and Certification

- 2011-2018 Commonwealth of Massachusetts Full Medical License
2014-2024 American Board of Obesity Medicine
2015-2025 American Board of Pediatrics

Practice Activities

2012-2015	Ambulatory and Inpatient	MGH Weight Center, Massachusetts General Hospital	Obesity Medicine & Nutrition Fellow
		2012-2013	(40 hr/wk clinical, 10 hr/wk research)
		2013-2014	(30 hr/ wk clinical, 30 hr/wk research)
		2014-2015	(10 hr/ wk clinical, 30 hr/wk research)
2015-Present	Ambulatory and Inpatient	MGH Weight Center, Massachusetts General Hospital	Obesity Medicine Physician
		2015-Present	(24 hr/ wk clinical, 36 hr/wk research)

Clinical Innovations

- 2013- Present Worked with EMR team in the transition from Longitudinal Medical Record (LMR) to EPIC to ensure that patients with overweight and obesity are appropriately identified by BMI criteria in the EMR to aid clinicians in treatment of this disease process.

Report of Education of Patients and Service to the Community

Activities

- 1996-Present **College Mentor/ Lecturer**
Present church and school programs to encourage students to attend college and introduce students to college preparation skills.
- 1998-2003 **Atlanta Public Schools Science Fair/ Judge**

Judge for science fairs at Inman Middle School, Benjamin E. Mays High School, and the Atlanta City Congress.

- 1998-2003 **Meals on Wheels Volunteer**
Help deliver meals to the elderly and the chronically ill in the Metro Atlanta area.
- 1998-2003 **Project Open Hand/ Volunteer**
Volunteered with this organization to fix meals for AIDS victims in Atlanta, Georgia.
- 2003-2007 **Junior Medical League Module Leader/ Boys & Girls Club of Augusta, GA**
Developed a module about medical research careers to introduce students to that facet of medicine.
- 2008 **Unity Games/ Team Physician**
Served as a physician for the Unity Games Staten Island, a 2 day basketball event for middle school students of different race and socioeconomic status, with the goal of promoting unity and cohesion.
- 2008-Present **Caucus of Emory Black Alumni/ Mentor**
Mentor students interested in entering the medical profession.
- 2010-2011 **American Medical Association Conley Medical Ethics Essay Competition/ Judge**
Serve on panel to judge medical student ethics essays for the American Medical Association's *Virtual Mentor*.
- 2010 **Hopkins Middle School, Columbia, SC**
Presented lecture on obesity in the pediatric population.
- 2011 **Emory University Scholars Program**
Served as keynote speaker for Emory Scholars Graduating Class of 2011.
- 2011 **Delta Sigma Theta Sorority, Inc. University of SC Chapter/ Speaker**
Presented lecture on Depression in the African American Community.
- 2011 **Junior League of Columbia/ Speaker**
Presented lecture on obesity in the pediatric population.
- 2012 **Delta Sigma Theta Sorority, Inc. University of SC Chapter/ Speaker**
Presented lecture on Obesity in the African American Community
- 2012-Present **Massachusetts General Hospital Youth Scholars**
Mentor 10th grade students in Boston Public Schools who are interested in science careers.
- 2013 **Appalachian Mountain Club and Massachusetts General Hospital for Children**

Worked on Outdoors RX program, a program designed to help encourage physical activity in children outdoors.

- 2014 **Cooley Dickinson Health Care Lecture**
Presented a lecture entitled- “There is more to losing weight than Dieting and Exercise”.
- 2015 **MA State Legislature- MA House Bill 1764 Testimony**
Testified to the Joint Committee on Labor and Workforce Development in support of this bill to make discrimination on the basis of height and weight unlawful in the Commonwealth of Massachusetts.
- 2015 **Syracuse Pediatric Obesity Roundtable Lecture and Discussion**
Presented a lecture on Pediatric Obesity Research and Clinical Practice. Discussed creating a culture of wellness where we live. Discussed collaboration between schools and their respective community partners that collectively achieve greater health and academic outcomes among students.
- 2017-18 **New England Science Symposium (NESS) Oral Session Judge (16-17th annual)**
Served as an oral session judge for The New England Science Symposium (NESS), which provides a forum for postdoctoral fellows; medical, dental and graduate students; post-baccalaureates; college and community college students (particularly for African-American, Hispanic/Latino and American Indian/Alaska Native individuals) to share their biomedical and health-related research activities through oral or poster presentations, to engage in discussions related to career development in the sciences, and to exchange ideas and to expand their professional networks.
- 2017-2018 **The Obesity Society Twitter Spokesperson (General Obesity and Pediatric Obesity)**
Serve as a content expert for general public question on general and pediatric obesity questions on the social media for Twitter.
- 2018 **Health Professions Recruitment and Exposure Program (HPREP) at Harvard Medical School**
Serve as physician career mentor for HPREP, an extracurricular program aimed at recruiting high school students, particularly those from under-served or underrepresented backgrounds, into science and medicine.
- 2018 **Massachusetts General Hospital Association of Multicultural Members of Partners (AMMP) Martin Luther King, Jr. Keynote Speech**
“Change begins with self”- What are the challenges, progress that are important to you that are well connected to Dr. Kings dream? Also, reflected in your journey and your day to day work what would be your message to the AMMP members on ways to create economic empowerment and equal platform for access to healthcare, good life, good nutrition values that would resonate to Dr. Kings spirit.
<https://youtu.be/rv4-BATtNUQ>

- 2018 **Massachusetts General Hospital for Children Parenting Series**
Present a discussion-style talks for employees with children that focus on parenting and health-related topics related to weight management in children and adolescents.
- 2018 **Massachusetts General Hospital HUBWEEK**
Present a talk on kids and sleep and obesity to understand the connection.
- 2019 **Massachusetts General Hospital The Maxwell and Eleanor Blum Patient and Family Learning Center within the Institute for Patient Care**
Understanding Optimal Weight and Nutrition in Children and Adolescents
Present a talk on obesity and nutrition in children for National Nutrition Month.
- 2019 **Massachusetts General Hospital Russell Museum of Innovation**
Obesity: A Rising Threat to Global Health
Present a talk on obesity and the science and medicine around and behind it.

Clinical Guidelines and Reports

Weight Loss Pharmacotherapy Protocol

Work as member of a MGH Weight Center committee to standardize the use of weight loss medications for patients with overweight or obesity. Helped develop pilot program and determine cost/benefits of medication in certain patient groups (e.g. type 2 diabetes mellitus, psychotropic-induced weight gain).

Pediatric Program Protocol

Work as member of a MGH Weight Center committee to standardize the care of pediatric patients with overweight or obesity. Helped determine appropriate clinical contact with physicians, psychologist, and dietitians, length of program, and supporting clinical activities.

Narrative Report

Introduction

I am an obesity medicine physician scientist who specializes in the care of adults, adolescents, and children with overweight and obesity. After completing my fellowship in obesity medicine & nutrition at MGH and HMS and a Zuckerman fellowship as a mid-career Master of Public Administration student at the Harvard Kennedy School of Government in 2015, I joined the faculty where I provide clinical care, supervise trainees, administer a clinic, and conduct research on obesity, health policy, and health disparities to enhance our knowledge and quality of patient care.

Area of Excellence: Clinical Expertise and Innovation

My clinical interests and expertise revolve around the practice of obesity medicine and nutrition. Since 2007, I have been actively involved in clinical work, providing treatment of patients with obesity; I receive referrals from colleagues locally, regionally, nationally, and internationally.

In the MGH Weight Center, we evaluate and treat thousands of patients each year; and it serves as a core training experience for several HMS medical students, residents, and fellows each year. I have helped to develop a standardized approach for the use of weight loss pharmacotherapy for adults and have assisted with the development of our pediatric treatment program. I have utilized weight loss medication after bariatric surgery, and I am helping to disseminate information on its use for weight regain and subclinical weight loss. I receive invitations to speak on the topic of obesity at local, regional, national, and international meetings. I serve as a peer reviewer for several medical journals on the topic of obesity, nutrition, physical activity, public health, health disparities, and health policy.

Teaching

I have been actively involved in teaching and supervision of medical students and residents since I began as a fellow at MGH/HMS. In addition, I lecture regularly in the HMS course in Health Policy in the first year and Nutrition in the second year. I received a Certificate for Excellence in Tutoring in the HMS Health Policy New Pathway course, and I was a 2016 nominee for the HMS Donald O'Hara Faculty Prize for Excellence in Teaching (Years I & II).

Supporting Activity: Investigation

I have been conducting clinical research on bone metabolism in adolescents who undergo bariatric surgery, and I have received funding from the NIH NIDDK Diversity Supplement and the MGH Physician Scientist Development Award. I have papers that have recently been accepted or are under review which: 1) evaluate the efficacy of weight loss medications as an adjunct to weight loss surgery, 2) delineate the metabolic changes associated with adolescents who undergo weight loss surgery, and 3) evaluate obesity treatment coverage in the United States.

Supporting Activity: Education of Patients and Service to the Community

I write for, and am featured in, national news broadcasts, magazines, newspapers, and websites on issues related to obesity, and I speak to lay populations to educate them about this disease. I present information related to obesity through the media, including television and podcasts. I educate and mentor pre-professional students in biomedical science. I am the 2017 recipient of the HMS Diversity Award and Massachusetts Medical Society (MMS) Women's Health Award. I was selected as the 2019 recipient of the MMS Suffolk District Community Clinician of the Year.

Supporting Activity: Administration and Institutional Service

I have been active in organized medicine, and I have been elected or appointed to leadership positions in the World Medical Association, the American Medical Association (AMA), the American College of Physicians (ACP), the American Academy of Pediatrics (AAP), and The Obesity Society (TOS). I am a current at-large delegate to the Minority Affairs Section (MAS) of the AMA, advocacy co-chair for TOS, vice chair for the MMS Young Physicians Section, and academic delegate to ACP.
