PROFESSIONAL EXPERIENCE

Assistant Professor, Harvard Graduate School of Education Education Policy and Program Evaluation concentration (EPPE) Cambridge, Massachusetts	July 2015–Present
Faculty Affiliate, Department of Statistics, Harvard University	July 2015–Present
Assistant Professor, Department of Statistics, Harvard University Cambridge, Massachusetts	July 2012–June 2015
Faculty Affiliate, Harvard Graduate School of Education Education Policy and Program Evaluation concentration (EPPE)	June 2014–June 2015

EDUCATION

<i>Ph.D.</i> , Statistics, University of California, Berkeley Advisors: Prof. Bin Yu, Statistics and EECS, and Prof. Jasjeet Sekhon, Political Science and Statistics. Thesis: Three Statistical Methods for the Social Sciences Berkeley, California	2012
Mathematics Education Ph.D. Program, University of California, Berkeley In the Graduate Group in Science and Mathematics Education (SESAME) Switched to Statistics Program A.B.D. Berkeley, California	2006–2009
<i>M.S.</i> , Computer Science, Massachusetts Institute of Technology Advisor: Prof. Randall Davis Thesis: A foundation for intelligent multi-modal drawing environments Cambridge, Massachusetts	1999
<i>B.S. with Honors</i> , Computer Science, California Institute of Technology Pasadena, California	1997
<i>B.A.</i> , Mathematics, Reed College Portland, Oregon	1997

JOURNAL PUBLICATIONS

- 1) Miratrix, L. & Zubizarreta, J., (In press) Bounds On Point Estimates Under Unknown Sample Selection Probabilities and Shape Constraints. *Biometrika*.
- 2) Miratrix, L., Sekhon, J. S., Theodoridis, A., Campos L., (In press) Worth Weighting? How to Think About and Use Sample Weights in Survey Experiments. *Political Analysis*.

CONFERENCE PAPERS & PROCEEDINGS

- 1) Miratrix, L., Feller, A., Pillai, N., & Pati, D. (2016) Using Dirichlet Processes for Modeling Heterogeneous Treatment Effects across Sites. Presented at SREE 2016, Washington, D.C.
- 2) Anastasopoulos, J., Kaufman, A., & Miratrix, L. (2015) Separating Topic Selection and Word Choice in Estimates of Media Bias. Meeting of the Midwest Political Science Association, Chicago, IL, May 2015.
- 3) Miratrix, L., Theodoridis, A., & Sekhon, J. (2014) Why You Should (Usually) Post-Stratify on Sample Weights in Survey Experiments. Presented at POLMETH XXXI, Athens, Georgia.

- 4) K. Reinecke, T. Yeh, L. Miratrix, R. Mardiko, Y. Zhao, J. Liu, & K. Z. Gajos, (2013) "Predicting users' first impressions of website aesthetics with a quantification of perceived visual complexity and colorfulness," In *Proceedings of the SIGCHI Conference on Human Factors in Computing Systems*, pp. 20492058. Won Best Paper Honorable Mention Award for the CHI 2013.
- 5) Heller, J. I., Shinohara, M., Daehler, K. R., Rabe-Hesketh, S., & Miratrix, L. (2012). Effects of Making Sense of SCIENCE professional development on the science achievement of middle school students. In N. Finkelstein (Chair), *Implementing randomized controlled trials in local education settings: Design, methods, findings and practical research realities*. Symposium conducted at the annual meeting of the American Educational Research Association, Vancouver.
- 6) Heller, J.I., Shinohara, M., Miratrix, L.W., Rabe-Hesketh, S., & Daehler, K.R. (2010). Learning Science for Teaching: Effects of professional development on elementary teachers, classrooms, and students. Paper presented at the *2010 Conference of the Society for Research on Educational Effectiveness (SREE)*, Washington, D.C.
- 7) Gawalt, B., Jia, J., Miratrix, L.W., Ghaoui, L., Yu, B., & Clavier, S. (2010). Discovering word associations in news media via feature selection and sparse classification. In *Proceedings of the 11th ACM SIGMM International Conference on Multimedia Information Retrieval*.
- 8) Hall, J.L., Miratrix, L.W., Stark, P.B., Briones, M., Ginnold, E., Oakley, F., et al. (2009). Implementing risk-limiting post-election audits in California. Paper presented at the *2009 Electronic Voting Technology Workshop/Workshop on Trustworthy Elections (USENIX EVT/WOTE)*, Montreal, Canada.
- 9) Ranney, M.A., Miratrix, L.W., & Martinez, C.A. (2009). Relationships among beliefs about evolution, creation, nationalism, theism, and global warming. Paper presented at the *Annual Meeting of the Psychonomic Society*, Boston.
- 10) Heller, J. I., Shinohara, M., Daehler, K.R., Miratrix, L.W., & Rabe-Hesketh, S. (2009). Impact of content-focused and practice-based professional development models on elementary electric circuits teaching and learning. In J. W. Little (Chair), *Learning Science for Teaching: A study of highly-designed professional development and its effects on teacher knowledge, classroom practice, and student learning*. Symposium conducted at the *Annual Meeting of the American Educational Research Association*, San Diego.
- 11) Ranney, M., Rinne, L.F., Yarnall, L., Munnich, E., Miratrix, L.W., & Schank, P. (2007). Designing and assessing numeracy training for journalists: toward improving quantitative reasoning among media consumers. In *Proceedings of the Eighth International Conference of the Learning Sciences*.
- 12) Gajos, K., Weisman, L.* , & Shrobe, H. (2001). Design principles for resource management systems for intelligent spaces. Paper presented at the *Second International Workshop on Self-Adaptive Software*, Budapest, Hungary.
- 13) Coen, M., Phillips, B., Warshawsky, N., Weisman, L.* , Peters, S., & Finin, P. (1999). Meeting the computational needs of intelligent environments: the Metaglu System. Paper presented at the *1st International Workshop on Managing Interactions in Smart Environments (MANSE)*.
- 14) Lackner, T.M., Dobson, K., Rodenstein, R., & Weisman, L.* (1999). Sensory puzzles. In *Extended Abstracts of the Conference of Human Factors in Computing Systems* (pp. 270-271). New York, NY: ACM Press.
- 15) Chandy, K.M., Dimitrov, B., Le, H., Mandleson, J., Richardson, M., Rifkin, A., et al. (1996). A world-wide distributed system using Java and the internet. In *Proceedings of the Fifth IEEE International Symposium on High Performance Distributed Computing* (pp. 11-18). Syracuse, NY: IEEE Computer Society Press.

* Changed name to Miratrix from Weisman in 2006

BOOK REVIEWS

- 1) Bind, M-A. & Miratrix, L. (2017) Review of *Analyzing Longitudinal Clinical Trial Data: A Practical Guide*
- 2) Miratrix, L., (2016) Review of *Introduction to Statistical Investigations*
- 3) Miratrix, L., (2016) Review of *Propensity Score Analysis: Fundamentals and Developments*
- 4) Miratrix, L., (2015) Review of *Regression Models for Categorical Dependent Variables Using Stata, Third Edition*
- 5) Branson, Z., Campos, L., & Miratrix, L. (2015) Review of *Hierarchical Modeling and Analysis for Spatial Data, Second Edition*
- 6) Miratrix, L., (2015) Review of *Multilevel Modeling Using R*
- 7) Miratrix, L., (2015) Review of *A Handbook of Statistical Analyses Using R, Third Edition*
- 8) Miratrix, L., (2014) Review of *Foundations of Statistical Algorithms: With References to R Packages*
- 9) Miratrix, L., (2014) Review of *Doing Survey Research: A Guide to Quantitative Methods, Third Edition*
- 10) Miratrix, L., (2013) Review of *Design of Observational Studies* (Psychometrika 79(3):540-542)

Reviews for JASA or TAS unless otherwise noted

TECHNICAL REPORTS

- 1) Miratrix, L.W., Jia, J., Gawalt, B., Yu, B., & El Ghaoui, L. (2011). What is in the news on a subject: automatic and sparse summarization of large document corpora. UC Berkeley Dept. of Statistics Technical Report #801.

WORKING PAPERS AND PAPERS UNDER REVIEW

- 1) Branson, Z., Rischard, M., Bornn, L., & Miratrix, L. A Nonparametric Bayesian Methodology for Regression Discontinuity Designs. Submitted to *Journal of Business and Economic Statistics*.
- 2) Branson, Z., & Miratrix, L. Randomization Tests that Condition on Non-Categorical Covariate Balance. Submitted to the *Journal of Causal Inference*.
- 3)
- 4) Caughey, D., Dafoe, A., Miratrix, L., Beyond the Sharp Null: Randomization Inference, Bounded Null Hypotheses, and Confidence Intervals for Maximum Effects. Under revision at the *American Journal of Political Science*.
- 5) Ding, P. & Miratrix, L., Likelihood-Based inference of binary experimental data without modeling. Under revision at the *Scandinavian Journal of Statistics*.
- 6) Fan, A., Doshi-Velez, F., Miratrix, L., Promoting Domain-Specific Terms in Topic Models with Informative Priors. Working paper.
- 7) Feller, A., Grief, E., Miratrix, L, & Pillai, N. S., Causal inference in the Twilight Zone: Estimating principal stratification models with finite mixtures. Working paper.
- 8) Mozer, R, Miratrix, L., Kaufman, A. R., Anastasopoulos, L. J., Matching with Text Data: An Experimental Evaluation of Methods for Matching Documents and of Measuring Match Quality. Working paper.
- 9) Page, L.C., Unterman, R., Feller, A., Miratrix, L., & Somers, M-A., Ninth-grade On-track Status as a Precursor to High School Success in Small Schools of Choice. Working paper.
- 10) Pashley, N. & Miratrix, L. Insights on Variance Estimation for Blocked and Matched Pairs Designs. Submitted to *JRSS B*.

- 11) Schwartz, D., A. Feller, and L. Miratrix (2017). Estimating treatment effect distributions in multi-site trials. Working paper.
- 12) Yuan, L.-H., Feller, A., & Miratrix, L. (2017) Covariate restrictions for principal causal effects in single- and multi-site trials. Working paper.

CURRENT DOCTORAL STUDENTS

Zach Branson, Statistics (advisor)

Luis Campos, Statistics (advisor)

Nicole Pashley, Statistics (advisor)

Maxime Rischard, Statistics (advisor)

Reagan Mozer, Statistics (advisor)

Ben Weidmann, EPPE, School of Education (co-advisor)

Lo-Hua Yuan, Statistics (advisor)

CURRENT DOCTORAL DISSERTATION COMMITTEES

Shireen Al-Adeimi, School of Education (on committee)

Catherine Armstrong, School of Education (on committee)

Guillaume Basse, Statistics (on committee)

Masha Bertling, School of Education (on committee)

Aaron Kaufman, Government (on committee)

Eddie Kim, EPPE, School of Education (on committee)

Sophie Litschwarts, EPPE, School of Education (on committee)

Jameson Quinn, Statistics (on committee)

Yi Xe Thng, School of Education (on committee)

PRIOR DOCTORAL STUDENTS

Peng Ding (2015): Exploring the Role of Randomization in Causal Inference

Avi Feller (2015): Essays in Causal Inference and Public Policy

PRIOR DOCTORAL DISSERTATION COMMITTEES

Wenjuan Qin (2018): Navigating across Communicative Contexts: Exploring Writing Proficiency in Adolescent and Adult EFL Learners (Education)

Joseph McIntyre (2017): A Study of the Representation of Gender and Race in Children's Books: A Tragedy in Three Acts (Education)

Darrick Yee (2017): A Three-Study Examination of Test-based Accountability Metrics (Education)

Joseph Lee (2015): Extensions of Randomization-Based Methods for Causal Inference (Statistics)

Jiannan Lu (2015): On Causal Inference for Ordinal Outcomes (Statistics)

Joseph Kelly (2014): Advances in the Normal-Normal Hierarchical Model (Statistics)

Dave Watson (2014): Complications in causal inference: incorporating information observed after treatment is assigned (Statistics)

Valeria Espinosa (2014): A Bayesian Perspective on Factorial Experiments Using Potential Outcomes (Statistics)

Jonathan Bischof (2014): Interpretable and Scalable Bayesian Models for Advertising and Text (Statistics)

AB THESES SUPERVISED

Angela Fan (2016), “Solutions to the Stopword Problem: Semantically Interpretable Latent Dirichlet Allocation Models” (Statistics)

Sam Finegold (2015), “‘The Price Is Right:’ Predicting The Prices Of Local Consumer Services” (Statistics)

Ian Lundberg (2015), “Who pays a motherhood wage penalty? The role of job change and employment gaps” (Statistics & Sociology)

Stephen Bates (2014), “Thoughts on Permutation Tests and Other Nonparametric Methods for Causal Inference” (Statistics)

Kai Fe (2014), “Generalizing Results of Experiments with Non-Representative Samples” (Statistics)

George Pocheptsov (2014), “Traces of Oblomov’s Utopia: Applying Methods in Text Mining to Track and Critically Analyze the Thematic, Aesthetic, and Linguistic Features of the Dream in the Rest of the Novel” (Statistics & Slavic Languages)

Kevin Wu (2014). “Understanding “Fedspeak”: Identifying the Sources of Investor Sentiment in Central Bank Communications” (Applied Mathematics) (Informal advisor and thesis reader)

Sylvia Warren (2014), “From Tent to Home: Measuring the Causal Effect of Relocation Programs in Port-au-Prince, Haiti” (Statistics)

Raj Bhuptani (2013), “Yelping for Help and Helping Yelp.” Undergraduate Honors Thesis, Department of Statistics, Harvard University. (Statistics) Thesis won the Hoopes Prize.

COURSES TAUGHT AT HARVARD UNIVERSITY

S-071 (Doctorate Workshop on Complex Data): Spring 2017

S-022 (Statistical Computing and Simulation-Based Analysis): Spring 2016, Spring 2017

S-043/Stat 151 (Analysis for Clustered and Longitudinal Data): Fall 2015, Fall 2016

Stat 100 (Introduction to Statistics for the Social Sciences): Fall 2012, Fall 2013, Fall 2014

Stat E-100 (Introduction to Statistics for the Social Sciences, Extension School): Fall 2014

Stat 240 (Matched Sampling and Study Design, joint with Donald Rubin): Fall 2013

Stat 242 (Permutation and Resampling Based Statistical Methods): Spring 2013, Spring 2015

Stat 315 (High Dimensional Causal Inference): Fall 2014

Stat 328 (Bayesian Nonparametrics, joint with Luke Bornn): Fall 2013

Stat 329 (Special Topics in Bootstrap and Permutation Methods): Spring 2014

Stat 342 (Causal Graphs in Low and High Dimensions): Fall 2012

Stat 303f (The Art and Practice of Teaching Statistics, joint with Xiao-Li Meng): Spring 2014

Gov 3009 (Research Workshop in Applied Statistics, joint with Gary King, Don Rubin and others):
Fall & Spring, 2012 onwards

PRIOR TEACHING EXPERIENCE

GSI/Teacher at UC Berkeley

- Stat 20: Introduction to Statistics (Summer 2010; Fall 2011)
- Stat 215B: Applied Statistics (Spring, 2010)
- AP Statistics for the ATDP Summer Program, (Summer 2007; Summer 2008)

High-School Mathematics and Computer Science Teacher 2003–2005
Sonoma Academy, Santa Rosa, CA

High-School Mathematics and Computer Science Teacher 1999–2003
The Commonwealth School, Boston, MA

WORK EXPERIENCE

Statistical Consultant 2008–2015
Heller Research Associates, Oakland

Statistical Consultant 2007–2009
Community Resources for Science, Berkeley

Research Intern Summer, 2008
Genentech, South San Francisco, CA

Researcher for the Intelligent Room Project (Part-Time) 1997–2000
AI Lab (CSAIL), M.I.T. with Howard Shrobe and Prof. Randall Davis

Programming Consultant 1997
CfMC, San Francisco, CA

Infospheres Research Assistant 1996–1997
Caltech, Pasadena, CA with Prof. Mani Chandy

TECHNICAL SKILLS AND ACCOMPLISHMENTS

Software packages developed:

- R package ‘textreg’ for sparse regression on text to summarize large corpora. On CRAN.
- R package ‘elec’ for planning and analyzing audits of election returns. On CRAN.
- Matlab and C package ‘statnews’ for summarizing large text corpora.

- Java package ‘bots’ for teaching Java programming along with accompanying textbook.

Languages: R, Python, C/C++, Matlab, Java, Sql

Software Development Skills:

- Experience managing multi-person coding projects
- Experience with programming environments, version control systems, etc.

PROFESSIONAL DEVELOPMENT (TEACHING)

Ross Summer Program for Teachers Summer, 2005

- Three week program on number theory and pedagogical techniques for teaching abstract math in an inquiry based manner.

Klingenstein Summer Institute Summer, 2002

- Intensive two-week program analyzing pedagogy and diversity issues in independent schools.

PROFESSIONAL ACTIVITIES

Associate Editor for *Journal of Research on Educational Effectiveness*, 2017–

Associate Editor of *JASA/TAS Book Reviews*, 2014–.

Regularly reviews papers of *The Annals of Applied Statistics*, *The Journal of the American Statistical Association*, *The American Journal of Political Science*, *The Journal of Causal Statistics*, *The Journal of Statistical Software*, *the Journal of Research on Educational Effectiveness*, *the American Journal of Evaluation*, and others.

Member of the ASA (American Statistical Association), IMS (Institute of Mathematical Statistics), and SREE (Society for Research in Education Effectiveness)

SERVICE (SELECTED ACTIVITIES)

Co-Convener for HGSE Research Doctoral Strand Colloquia (Education Policy), 2016-2017 year.

Served on the Equity and Opportunity Subgroup for HGSE Master Redesign/Curriculum Planning Committee, Spring, 2017.

Session organizer for “Four Approaches to Treatment Effect Heterogeneity” for the Joint Statistical Meeting, Summer 2015.

Designed and implemented professional development workshop “Principal Stratification: A Tool for Understanding Causal Impacts on Latent Groups” with Avi Feller and Lindsay Page for SREE Spring Conference, 2015.

Organizer for the Statistics Colloquium, 2012-2013 year. Organizer for Prospective Graduate Student visiting days. On committee for redesigning undergraduate education in Statistics (2014-2015 year).

Session organizer for “Exchanging pedagogy between post-secondary and secondary school statistics courses” for the International Conference on Teaching Statistics (ICOTS9), Summer 2014.

HONORS AND AWARDS

National Science Foundation Graduate Research Fellowship	2007
Berkeley Graduate Fellowship	2006

SELECTED TALKS

Estimating Causal Effects with Zero-Inflated Outcomes SREE, Feb, 2018

Using Covariates to Detect Treatment Effect Heterogeneity in Multisite Trials SREE, Feb, 2018

Whose side are you on? Different patterns of treatment effect variation. (Invited) IES PI meeting, January, 2018

Matching as a road towards interpretable causal inference analysis, with media bias illustration. (Invited) Lincoln Labs, November, 2017

Prior matters: simple and general methods for evaluating and improving topic quality in topic modeling. Text as Data, October, 2017

Matching for Inference on Text Data with an Application to Measuring Media Bias. (Invited) JSM, 2017, Baltimore, MA.

Decomposing Treatment Effect Variation. (Invited) Stanford Statistics, 2017.

Randomization Inference for Treatment Effect Heterogeneity. Columbia University Causal Inference Conference, May, 2017

Treatment effect distributions in multi-site trials. Columbia University Causal Inference Conference, May, 2017

Estimating treatment effect distributions in multi-site trials. NESS, 2016

Ninth-Grade On-Track Status as a Precursor to High School Success in Small Schools of Choice. SREE, 2017

Covariate Restrictions for Estimating Principal Causal Effects in Single- and Multi-Site Trials. SREE, 2017

Randomization Inference for Treatment Effect Heterogeneity. University of Pennsylvania, 2017

Beyond the Sharp Null: Permutation Tests, Heterogeneous Effects, and Bounded Null Hypotheses. UC Berkeley, 2016

Estimating treatment effect distributions in multi-site trials. NESS, 2016

Principal Stratification in the Twilight Zone: Weak Separation in Finite Mixture Models. SREE, 2016

Assessing Dosage-Related Variation in Treatment Effects with Principal Stratification. SREE, 2016

Using Dirichlet Processes for Modeling Heterogeneous Treatment Effects across Sites. SREE, 2016

Finding risk-factors for workplace accidents in an OSHA fatality and catastrophe database. Text as Data, October, 2015

Why You Should (Usually) Post-Stratify in Survey Experiments. Atlantic Causal Inference Confer-

ence, 2015

Statistics in the Twilight Zone: Component-Specific Inference in Finite Mixture Models. Joint Statistical Meeting (JSM), 2015

Methods for Modeling and Decomposing Treatment Effect Variation in Large-Scale Randomized Trials. SREE, March, 2015

Examining the Foundations of Methods That Assess Treatment Effect Heterogeneity across Intermediate Outcomes. SREE, March, 2015

Principal Stratification: A Tool for Understanding Causal Impacts on Latent Groups. SREE, March, 2015

Randomization Inference for Treatment Effect Variation. (Invited) Workshop on Quantitative Methods in Education, Health and the Social Sciences (QMEHSS), University of Chicago, May, 2014.

An introspection on using sparse regression techniques to analyze text. (Invited) Statistics Research Seminar, NYU Stern School of Business (Department of Information, Operations & Management Sciences), April, 2014.

Randomization Inference for Treatment Effect Variation. (Invited) MIT-Harvard Econometrics Workshop, Feb, 2014.

Compared to What? Estimating Causal Effects for Latent Subgroups to Understand Variation in the Impacts of Head Start by Alternate Child Care Setting. SREE Spring 2014, Washington D.C.

Testing for and Characterizing Treatment Effect Heterogeneity Under the Neyman-Rubin Potential Outcomes Framework. JSM 2013, Section on Statistics in Epidemiology, Montreal, Canada.

Assessing Treatment Effect Heterogeneity in Randomized Experiments. (Invited) Atlantic Causal Inference Conference, May, 2013

An introspection on using sparse regression techniques to analyze text. (Invited) Department of Mathematics and Statistics, Boston University, 2013.

Random Weight Estimators: Adjusting Randomized Trials Without Using Observed Outcomes. (Invited) Department of Statistics, Stanford, 2012.

Adjusting treatment effect estimates with post-stratification. Poster presented at POLMETH '11, Princeton, NJ.

Implementing Risk-Limiting Audits in California. Joint Statistical Meeting (JSM) 2009, Washington, DC.
