New Paper on Beta-Delta
September 19, 2011

Jose Louis Montiel Olea and I just completed a new paper. We show how to simply axiomatize the beta delta model using the time dimension. This suggests a nice experimental measurement technique. Comments welcome.

Ec 1030: Psychology and Economics
 Semester: Spring
 Offered: 2012
 FAS course page

Psychological concepts include social preferences, impulsivity, bounded rationality, loss-aversion, over-confidence, self-serving biases, hedonics, and neuroscience. Economic concepts include arbitrage, equilibrium, rational choice, utility maximization, Bayesian beliefs, game theory. Integrates these psychological and economic concepts to understand behavioral phenomena such as portfolio choice, saving, procrastination, addiction, asset pricing, auction bidding, labor supply, cooperation, persuasion.
