

Group 1:

A Map of the County between Albemarle Sound and Lake Erie ... G3790 1787 .J4

When was the map created? Where was it printed? Who printed it? Who engraved it?

How does this map describe the geography of this region: what features of the landscape does the map emphasize? How does it represent different features of the region?

What natural, cultural and political information does the map provide? What information does it prioritize? What image does this map create of these states?

What purpose (or purposes) do you imagine this map served? How does this map compare in these features with the selections of *Notes on the State of Virginia* that we read?

A General Map of the Middle British Colonies in America ... G3710 1771 .E83

When was the map created? Where was it printed? Who printed it? Who engraved it?

How does this map describe the geography of this region: what features of the landscape does the map emphasize? How does it represent different features of the region?

What natural, cultural and political information does the map provide? What information does it prioritize? What image does this map create of the middle colonies?

What purpose (or purposes) do you imagine this map served? How does this map's purpose or purposes compare to Jefferson's, in his map, in *Notes*, and in the Declaration of Independence?
