Well Randy,

Old brother Reach needed
this little rest. However, I don't
have too many more intermissions
left. So, I am going to have
to watch my step from here on
out. Thank you for your uplifting
letter. It was just the tonic I
needed. I am more than just
proud to be your friend and
musical brother. In the meantime
I'm still in the black, emotionally,
as tests here have proven. The very
best to you and yours

Always with love +
respect
