

2023-5-4

Jack Bishop

PhD Student
Department of Anthropology
Harvard University
Cambridge, MA
jackbishop@fas.harvard.edu

EDUCATION

- 2020- PhD Student in Anthropology, Harvard University
- 2014-2018 BA in Anthropology and Integrative Biology, University of California, Berkeley

PROFESSIONAL EXPERIENCE

- 2022- *Harvard University Teaching Fellow*
GENED 1105: Can We Know Our Past?
ANTHRO 1060: Introduction to Archaeological Science
ANTHRO 98B: Junior Tutorial
- 2019-2020 *Fossil Lab Volunteer and Museum Floor Interpreter*
La Brea Tar Pits and Museum (Los Angeles, CA)
Cleaned and prepared excavated fossils for curation and analysis. Engaged directly with guests in active interpretation of fossil exhibits.
- 2019-2020 *Art Department Researcher*
For All Mankind, Sony Pictures Studios (Culver City, CA)
Assembled research reports on historical and scientific topics for the design of television sets and visuals and collaborated with department colleagues to articulate these reports with visual design and narrative priorities.
- 2016-2018 *Undergraduate Researcher*
University of California, Berkeley
University of California Digital Archaeology Catalyst Project

FIELD PROJECTS

- 2022 *Survey Member*
Erbil Plain Archaeological Survey (Erbil, Iraq)
Conducted ground survey, drone photography/videography/mapping, and GIS data management.
- 2022 *Excavation Member*
Jorf el Hamam Excavation (Ounagha, Morocco)
Excavated Middle Stone Age layers at Jorf el Hamam near Ounagha, Morocco.
- 2021 *Survey Member*
Central Wyoming College Archaeological Field School (Lander, Wyoming)
Conducted six weeks of archaeological field survey on U.S. Bureau of Land Management land in Wyoming in compliance with Sections 105 and 106 of the National Historic Preservation Act.
- 2018 *Expedition Member*
Megiddo Expedition (Megiddo, Israel)
Excavated at Tel Megiddo with funding from the Shmunis Family Archaeology Scholars Fund. Excavated Bronze Age contexts adjacent to the ancient city's Bronze Age wall. Operated the excavation area's total station and transferred its data at the end of each day.
- 2017 *Field School Student*
Institute for Field Research (IFR) Penycloddiau Field School (Liverpool, UK)
Through the IFR and the University of Liverpool, excavated at Penycloddiau, an Iron Age hillfort in northern Wales.

RESEARCH PROJECTS

- 2023- *Global Equids Project*
Development of ZooMS markers for equid taxa in collaboration with the Max Planck Institute for Evolutionary Anthropology.
- 2020-2022 *Erbil Plain Archaeological Survey*
Conducted statistical analyses of landscape-scale settlement patterning data collected by the Erbil Plain Archaeological Survey and the North Jazira Project.

- 2015-2018 *Tshimbupfe-Berkeley Community Archaeology Partnership*
Analyzed portable x-ray fluorescence (PXRF) data collected from iron artifacts in Tshimbupfe, South Africa to establish a chemical connection between local ores and smelting products.
- 2016-2018 *University of California Digital Archaeology Catalyst Project*
Catalogued threats to archaeological sites in Syria and Iraq using the TerraWatchers satellite survey platform. Tested artifact photogrammetry techniques as part of a museum pilot program.

AWARDS

- 2022 *Harvard Anthropology Department Summer Research Grant*
Funding for costs associated with 2022 participation in the Erbil Plain Archaeological Survey and excavations at Jorf el Hamam, Morocco.
- 2018 *Shmunis Family Archaeology Scholars Fund*
Funding for participation in the 2018 Megiddo Expedition.

PAPERS PRESENTED

- 2022 Jack Bishop, Jason Ur “Settlement Patterning in Northern Iraq Under the Neo-Assyrian Resettlement Regime” American Society of Overseas Research (ASOR), Boston, MA, November 16-19

SERVICE TO THE UNIVERSITY

- 2023 *Amazing Archaeology Fair at Harvard*
Graduate Student Presenter
- 2022 *Harvard Archaeology Day*
Graduate Student Presenter
- 2022 *Amazing Archaeology Fair at Harvard*
