Notes: Values are in billions of current dollars. Price are normalized to one in 2000.

Information technology output is gross domestic product by type of product.

---

Notes: Value is in billions of current dollars. Quantity is in billions of 2000 dollars. Price and quality are normalized to one in 2000. Employment is in thousands of workers. Weekly hours is hours per worker, divided by 52. Hourly compensation is in current dollars. Hours worked are in millions of hours.
