Online Courses and Curriculum Development

STEM courses include:

[University Physics](#)(three semesters, calculus-based for scientists and engineers)

[College Physics](#)(two semesters, algebra-based for pre-meds)

[Introductory Astronomy](#)

[Human Anatomy and Physiology](#) (two semesters)

[Microbiology](#)

[College Biology](#) (two semesters for majors and health science concentrators)

[Biology for Non-Majors](#)

[Environmental Science](#),

Non-STEM courses include:

[Introductory Psychology](#)

[Introduction to Sociology](#)

[Macroeconomics](#),

[Microeconomics](#),

[American Government](#),

[U.S. History](#) (2 semesters).

SELECT BOOK CHAPTERS, ARTICLES AND PAPERS

Draft copies of the following select [published book chapters, articles, and papers](#) are available at harvard.academia.edu/KLeeLerner. The citations below generally refer to the original publication of a particular book chapter, article, or paper, but most of my papers and articles were republished multiple times, both in books and in online resource collections. In some cases, older versions of articles now exist online simultaneously with updated versions. In some cases herein, the most commonly accessed print or online version is noted along with a citation to its original publication.
