## Educational History

2009 – to date Post-doctoral Fellow, **Harvard University**, Cambridge, USA

- *Charge transport across self-assembled monolayers:* Demonstration that the 'odd-even effect' is due to interfacial sterics, and not electronic, properties of the molecules. Designed a study demonstrating that rectification observed in SAM-based junctions was due to the molecule and not the junction architecture.
- *Paper-based devices:* Developed hydrophobic paper devices by chemisorption for microfluidic devices. Microfluidic devices by embossing and stacking paper. Supported the development of 1D and 3D MEMS sensors and studies on paper-based 3D cell cultures.
- *CO<sub>2</sub>:* Free electron solution-based one-electron coupling of CO<sub>2</sub> to oxalate.

2004 – 2008 PhD, **University of Iowa**. Iowa City, IA USA

- *Cascade reactions:* Developed "pot-in-pot" reactions based on selective flux across polymeric membranes to isolate incompatible solvents and reagents.
- *Site-Isolation of catalysts and reagents:* Occluded catalysts in polymeric membranes for use with incompatible solvents or reagents.
- *Ultra-large Polymers:* Synthesized maleimide derived ultra-large comb-block polymers (> 1 million g/mole). These polymers self assemble into nanometer size rigid rods

2002 – 2004 MS, **Simon Fraser University**. Burnaby, BC Canada (Transferred to University of Iowa)

- *Chloro-amide rearrangements:* Investigated the conversion of α-chloroamides to ketones in bicyclo[2.2.1]heptanes systems. First closely correlated confirmation of Huckel's assumption on the absolute stereo-chemical configuration of (+)-norcamphor using anomalous dispersion of x-rays by Cl.
- *Thiirane dispalure analog:* Developed a 16-step total synthesis of the thiirane dispalure analog.

1996 – 2002 MS, **Kenyatta University**. Nairobi, Kenya

- *Tsetse Fly allomones:* Developed stereo-selective routes to chiral δ-octalactones and investigated their effects on the host-seeking behavior of *G. morsitans morsitans* B.Ed(sc)(hons), Kenyatta University, Nairobi, Kenya
- *Honors thesis:* Fraction of three medicinal plants for anti-malarial compounds. Employed a bioassay guided approach that led to isolation of one active compound.

## **Professional Appointments**

- Fall, 2008 Visiting Research Scholar, University of Iowa, Iowa City, IA  
Advisor: Prof. Leonard R. McGillivray
- 2002 Research Associate, International Centre of Insect Physiology & Ecology (ICIPE), Nairobi, Kenya.

## **Awards/Honors**

- 2012 *Young Researcher on Advanced Materials*: Invited speaker and Session Chair, Internal Unions of Materials Society, International Conference of Young Researchers on Advanced Materials (ICYRAM). Singapore, 2012
- 2010 – 2011 *Nanoscale Science and Engineering Centre (NSEC) Postdoctoral Fellowship*, Harvard University, Cambridge, MA
- 2009 – 2010 *Mary - Fieser Post-doctoral Fellowship*, Harvard University, Cambridge, MA
- 2008 Duke Conversations (Students invitee), Duke University, Durham, NC
- 2008 *Lynn-Anderson Inaugural award (Best graduate research student in Chemistry)*, University of Iowa, Iowa City, IA
- 2008 *Best mentor*, Department of Chemistry, University of Iowa, Iowa City, IA
- 2008 *Most motivated* graduate student (graduate students vote), Department of Chemistry, University of Iowa, Iowa City, IA
- 2008 *Research Fellow*, Graduate College, University of Iowa, Iowa City, IA
- 2000 – 2002 *African Regional Postgraduate Programs in Insect Science – Dissertation and Research Internship Program (ARPPIS-DRIP) scholar*, International Centre of Insect Physiology and Ecology (ICIPE), Nairobi, Kenya
- 2003 – 2006 *Travel Awards*  
University Hospital of Northern Norway/Tromso University, Norway, (2006),  
University of Iowa, Chemistry Department (2005 - 2008, 6 awards from Chemistry Department, Graduate student council, Dean - Graduate School),  
University of Iowa, Dean of graduate studies, (2008)  
Simon Fraser University, BC, Ca. (2003)

## **Teaching and Mentoring Experience**

- 2009 – to date Post-doctoral fellow, Harvard University, Cambridge, MA  
Mentored undergraduate interns and one visiting graduate student  
Mentored African faculty and students in grant writing, conducting research, publishing and in building networks across the world.  
Outreach to under-represented minorities – appointed mentor by the Harvard black science and engineering students
- 2004 – 2008 Teaching Assistant, University of Iowa, Iowa City, IA  
Led discussion classes and graded exams, mentored undergraduate research students.
- 2002 – 2004 Teaching Assistant, Simon Fraser University, Burnaby, BC Canada  
Led discussion classes and graded exams and mentored 3 undergraduate students.

**Funded Grants:**

1. Oct. 2012 – April 2014: "Development of low-cost diagnostic devices from biodegrade materials and can also be incinerated" Grand-Challenges Canada Grant No. 0153-01. (US\$ 113,000). **Role:** co-PI
2. Feb. 2012 – Aug. 2013:"A low-cost, paper-based electrochemical diagnostic device for point-of-care immunoassays" Grand-Challenges Canada Grant No. 0046-01-04-01-01. (US\$ 113,000). **Role:** co-PI
