

TABLE OF CONTENTS

Foreword

Russ Altman

1. Beyond the Genome

Hallam Stevens and Sarah S. Richardson

2. The Post-Genomic Genome

Evelyn Fox Keller

3. What *Toll* Pursuit: Affective Assemblages in Genomics and Postgenomics

Michael Fortun

4. The Polygenomic Organism

John Dupré

5. Machine Learning and Genomic Dimensionality: From Features to Landscapes

Adrian Mackenzie

6. Networks: Representations and Tools in Postgenomics

Hallam Stevens

7. Valuing Data In Postgenomic Biology: How Data Donation and Curation Practices Challenge The Scientific Publication System

Rachel A. Ankeny and Sabina Leonelli

8. From Behavior Genetics to Postgenomics

Aaron Panofsky

9. Defining Health Justice in the Postgenomic Era

Catherine Bliss

10. The Missing Piece of the Puzzle? Measuring the Environment in the Postgenomic Moment

Sara Shostak and Margot Moinester

11. Maternal Bodies in the Postgenomic Order: Gender and the Explanatory Landscape of Epigenetics

Sarah S. Richardson

12. Approaching Postgenomics

Hallam Stevens and Sarah S. Richardson
